

number of players and the number of rounds.

If all players deal early, play continues to see how the round would have panned out.

**Winner:**

The player with the highest total after the pre-agreed number of rounds have been played is the winner.

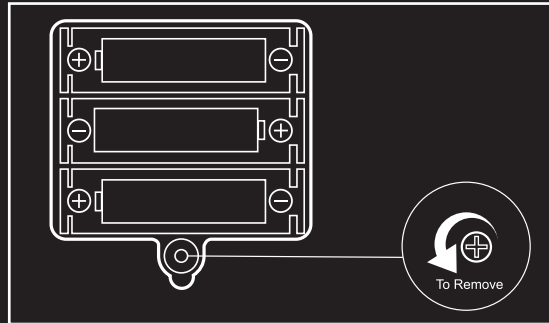

**Please note:**

After 15 minutes inactivity, the telephone will go into 'sleep mode'. To re-activate, simply press the next required button and continue.

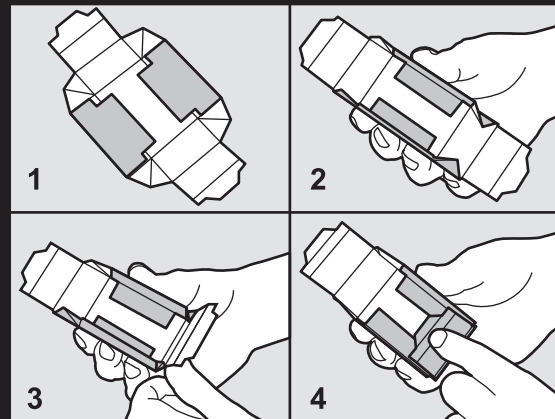

After the 20th box has been opened and the final offer has been made the telephone resets ready to start another round.

**Battery information**
