

# Stoopido™

## Contents:

## Setting up for the first time:

- Carefully press out the 4 Slap Pads and the Stoopido Face Pieces from their cardboard sheets;
- Attach the clear nose and ear clips to the Stoopido Face Pieces as shown below:

## Each time you play:

- Each player puts on a pair of glasses;
- Place the Stoopitoot in the middle of the play area with the 4 Slap Pads positioned around it and scatter the Stoopido Face Pieces beside them to form Face Piles as shown to the right.

## Let's get playing...

In Stoopido, players take it in turns to roll the dice but react and play at the same time. The youngest player starts and play moves clockwise.

On your turn, roll the dice...

If you roll the NOSE, EYES, HAT or EARS, the first player to touch the corresponding Slap Pad wins the round.

For example: Sam rolls the NOSE on the dice. Sally is the first to touch the NOSE Slap Pad so Sally wins the round.

Slap Pad

The winner of the round gets to pick a Stoopido Face Piece from the corresponding Face Pile and add it to the glasses of ANY player that isn't already wearing a Stoopido Face Piece of that feature.

For example: Sally, the winner of the round, chooses the clown's nose and adds it to Max's glasses. Important: ears are always added in pairs but they don't need to match.

If you roll the GLASSES, bad luck! The player to your left gets to pick a Stoopido Face Piece of ANY feature you don't already have and add it to your glasses.

For example: Sam rolls the GLASSES on the dice. Sally, sitting to his left, chooses the DRAGON'S EYES and places them on Sam's glasses.

If you roll the STOOPITOOT, the first player to squeak the Stoopitoot can choose to:

- Pick a Stoopido Face Piece of ANY feature and place it on ANY player; OR...
- Pick ANY Stoopido Face Piece from their own glasses and put it back in its Face Pile.

If you win a round and every player is already wearing the Stoopido Face Piece that was rolled, you can remove the corresponding Stoopido Face Piece from your glasses and put it back in its Face Pile.

If every player is already wearing the Stoopido Face Piece that was rolled, you can pick ANY player and swap out the corresponding Stoopido Face Piece on their glasses with another one from the same Face Pile.

If a player's GLASSES ARE FULL then they have lost and must sit out looking silly for the remainder of the game. LOSER!

### The Winner - Yay!

The game ends when there is only one player left without a full face of Stoopido Face Pieces on their glasses. That player is the winner and has the right to take photos of all the LOSERS holding the Stoopido LOSER Sign!
